This vibrant, modern ensuite with a chic European feel includes a romantic touch: a double shower. Easily big enough for two people, the shower also features a diverter to make use of the tiled love seat and hand-held massage shower.

Large-format white wall tiles contrast against the rough texture of the rockface porcelain floor, and latte-coloured wall tiles add a touch of warmth to the bathroom. Sleek, pure-white fittings and fixtures create a clean, fuss-free appearance and the finishing touch is a striking Hot Red mosaic feature wall in the shower area.

"The red mosaic tiles in this bathroom made it quite striking," said the judges. "The attention to detail was very good, including the seat in the shower." The judges also praised the standard of finishes in this bathroom.
